(Standards Options)

ARS-MMXTR Portable Concrete Mixer are one of the most versatile on the job mixers on the planet! The versatility of the mixer allows you to take your equipment from very remote areas to the suburbs. The flexibility of the mixer also allows you to get set up and ready for pouring in less than 10 minutes. Mixing time is about 10 minutes, which gives you more time to get the job done, on time, and under budget. The only thing you have to do is have the material on site, use one of our portable silos, or a side auger for bags and any necessary additives for your recipe. Low maintenance with less moving parts is a contractor or municipalities dream and that what we have achieved! The Mixer will be one of your best investments which will, in a very short time, pay for itself and a return on investment and profit.

Offers its expertise in portable cement mixers, portable batch plants, portable batch plant mixer combos, rock tumblers, and rock saws worldwide. Feels that what is most important to you is getting your concrete mixed right, so the job gets done right and under budget. You cannot afford to keep getting the wrong concrete mix, or waiting days and weeks. That is why we have nicknamed our mixers, batch plants, and silos “MiniMax True”, because they are designed and built to mix, batch, and operate right every single time.

Besides being reliable, affordable, easy to use, and made in the TURKEY? ARS-MMXTR offers a line of portable batch plants/mixers that are designed for the rugged outside applications. From the middle of the jungle to the deserts of , ARS-MMXTR has been there and can build a machine that fits your need. For over 15 years ARS-MMXTR has been building its name and reputation on the quality of its product. We believe that quality and performance is the key to success and we have proven that time and time again. Not only do we pride ourselves in our service, quality, and design, we also pride ourselves in our people. As a small company we have the advantage and ability to engage the needs and wants of all our customers, affirming that the product will be quality made and built on time. We are constantly dedicated to cost-effectively building our products on time and with the assurance that our customers know that the quality will last a lifetime
